

Katrin and Wolfgang Wien, Kit Manager NATO Golf Club, Report 2026

Katrin and I took over the role as Kit Manager on 19th October 2025. In the handover from Jon Gunther, we received inventory. The total value on the day of handover was as follows: **4.771,50 €**

Meanwhile we have stored inventory/ equipment and prizes now at our home. It's easier for Katrin and me to store them at home because, due to frequent travel, I don't have time to go to the container provided by NATO during the day.

Over time, we have sold equipment and distributed prizes at our tournament.

A handout/ overview of the purchase will be presented at the AGM as a print out.

For a general overview we have prepared in addition handouts of the current inventory which will be distributed at the AGM as well.

This results in a current value of the equipment as of today: **4.270,90**

In the meantime, through Jon Gunther's help, we have ordered new prizes. We will add these to the inventory upon receipt.

Next steps, way ahead:

Katrin has already contacted a company which deals with Glenmore manufacturers. We are awaiting their responses regarding prices and possibilities so we could order new items.

Once the offer is received, we will discuss it with the board to initiate any purchase.

Brussels, 14th of April 2026

Katrin and Wolfgang Wien
